🗣 Bilingual (English, Persian)

## EXECUTIVE HIGHLIGHTS

I am a dedicated front-end developer with a background in Quality Assurance Engineering, blending experience in managing multiple projects. My passion for teamwork, detail-oriented approach, and relentless commitment to learning allow me to thrive in deadline-oriented environments. I continuously update my skills to stay at the forefront of the field and have contributed to collaborative, innovative teams, including stints at both a SaaS startup and a large-scale SaaS company.

## SKILLS

**Languages** (JavaScript (ES6+ features), TypeScript, CSS, HTML5)

**Standards** (Object Oriented Programming, Model-view-controller (MVC))

**Frameworks** (React.js, Next.js, Bootstrap, React Router, React Hooks, Redux, CSS Modules, Material UI and Ant Design, JEST)

**Tools** (CSS preprocessors (Sass, LESS), Responsive web design, Manual and Automated test methodologies, Project management (Agile methodologies, Scrum, Kanban, Jira, Trello), Package managers (NPM, Yarn), Module bundlers (Webpack), Linters and formatters (ESLint, Prettier), Transpilers (Babel))

**Databases** (SQL, GraphQL)

**Version Control** (Git, GitHub/GitLab, Continuous Integration/Continuous Deployment (CI/CD))

**Environment** (Node.js)

## PROFESSIONAL EXPERIENCE

### Front-end Developer

2021/01 – 2023/08

#### *Rasha Communications Development*

- Developed a design library, planned and created React components, and wrote TypeScript unit tests using Storybook and Jest.
- Contributed to developing, testing, and maintenance of high-performance, large-scale web applications using JavaScript, NodeJS, React, Redux, and CSS.
- Successfully addressed challenges with strong problem-solving skills.
- Creating RESTful APIs to establish connections between the backend and frontend.
- Collaborated with Agile cross-functional teams to define, design, and expedite the delivery of new features.
- Utilized Jira for project management and tracking, in conjunction with Git for version control.
- Developed reusable, responsive components and modules, enhancing platform capabilities for UI teams.
- Continuously maintained clean, organized, and efficient code to support projects.

### Quality Assurance Specialist

2019/09 – 2020/12

#### *Fanap ICT Co*

- Tested three SaaS-based products: Financial, Accounting, and Treasury.
- Conducted unit, integration, and automation tests with meticulous attention to detail.
- Created comprehensive test cases and test scenarios for documentation.
- Employed data analysis techniques to interpret test results and offered valuable insights to the development team for continuous improvement.

## Front-end developer

2018/01 – 2019/08

### *Rasha Communications Development*

- Collaborated closely with front-end and back-end developers to implement responsive user interfaces using HTML, CSS, React, and Javascript.
- Utilized Postman to test and validate API endpoints.
- Conducted unit testing experience for applications.
- Turned design concepts into interactive, mobile-friendly websites by collaborating closely with designers.
- Used the Agile work environment and Scrum for team discussions and development processes.
- Provided Technical support on the customer's site.

## EDUCATION

---

### Bachelor of Architecture

2011/09 – 2015/05 | Bonab, Iran

#### *University of Bonab*

- GPA: 82.7
