

Niloufar Soltani

Front-end Developer

+1 (416) 882-8435 niloufarsoltani1993@gmail.com My Portfolio NiloufarSoltani

in niloufarsoltani 22/04/1993 Toronto, ON

I am a driven and passionate front-end developer with a strong foundation in various technologies and frameworks. With a background in QA, I possess a keen eye for detail and a passion for delivering high-quality software. I pursued my dream of becoming a front-end developer through rigorous self-study, personal projects, and professional work.

Skills

Tools and Technologies (Github, Gitlab, Jira, Scrum, Agile)

Web Development (React, JavaScript, React Hooks, Redux, HTML, CSS, Jest, CSS modules, Sass, Bootstrap, Responsive Web Design, REST API)

Professional Experience

- 02/2022 – present **Front-end Developer, freelancer**
I work on multiple projects using React, Redux, and other React env technologies, Javascript, Styled-components, CSS Modules, Bootstrap, and Material UI.
- 09/2019 – 12/2020 **Quality Assurance Specialist, Fanap ICT Co**
Tehran, Iran
- Responsible for testing three SaaS-based products: Financial, Accounting, and Treasury.
 - Created comprehensive test cases and test scenarios as documentation to ensure product quality.
 - Conducted unit, integration, and automation tests.
 - Served as a liaison between the development team, PM, and business analysts.
 - Collaborated with developers to troubleshoot and resolve issues.
 - Analyzed test results and provided actionable feedback to the development team.
- 01/2018 – 08/2019 **Front-end developer, Rasha Communications Development**
Tehran, Iran
- Collaborated closely with both front-end and back-end developers to implement responsive user interfaces using HTML, CSS, and JavaScript.
 - Worked alongside backend developers to integrate frontend components with backend APIs, ensuring seamless data flow and functionality.
 - Utilized Postman to test and validate API endpoints, ensuring proper integration and functionality of frontend-backend interactions.
 - Contributed to the development of multiple projects, utilizing version control tools like Git and tracking project tasks and workflow with Jira.
 - Migration from CSS modules to Styled Components, enhancing code maintainability and scalability.

Projects

English Learning App

This app is built with React, React Router, Redux, React hooks, Firebase authentication, and a real-time database.

Food Order App

Indulge in the convenience of a React-powered mock food ordering app, complete with custom hooks and React context for a streamlined ordering process simulation.

Education

- 09/2011 – 05/2015 **Bachelor of Architecture, University of Bonab**
Bonab, Iran
- GPA:** 16.54 / 20
 - Relevant coursework:** Design Thinking, Digital Fabrication, Sustainability in Architecture, Developed strong skills in critical thinking, problem-solving, and creative design through coursework and studio projects
