○ NiloufarSoltani   ▦ 22/04/1993   📍 Toronto, ON

I am a driven front-end developer with a background in QA Engineering. I entered the IT field in 2018 and I quickly adapted to new concepts. I have experience managing multiple projects and have worked at both a SaaS startup and a large-scale SaaS company. My main objective is to develop engaging user-friendly web applications that add value for clients and end-users alike. Drawing from my QA background, I bring meticulous attention to detail and a passion for writing clean code.

SKILLS

Languages
JavaScript
ES6+ features
TypeScript
CSS
HTML5

Environment
Node.js

Tools
CSS preprocessors (Sass, LESS)
Responsive web design
Module bundlers (Webpack)
Project management (Agile methodologies, Scrum, Kanban, Jira, Trello)
Package managers (NPM, Yarn)
Linters and formatters (ESLint, Prettier)
Transpilers (Babel)

Frameworks
React
Jest
Next.js
Bootstrap
React Router
State management (Redux)
CSS Modules
Material UI

Databases
SQL, GraphQL MongoDB

Version Control
Git
GitHub/GitLab
Continuous Integration/Continuous Deployment (CI/CD)

PROFESSIONAL EXPERIENCE

01/2021 – 05/2023   **Front-end Developer,** *Rasha Communications Development*

- My responsibilities include the development of a design library, planning and creating react components, writing typescript unit tests using Storybook and Jest, and participating in sprint grooming and planning, including pair programming and code reviews.
- Develop, test, deploy, and maintain high-performance, user-friendly web applications using JavaScript and React
- Participate in regular on-call rotation for production systems
- Cooperate with Backend engineers to build seamless and efficient API's and other mechanisms for the system.
- Collaborate with cross-functional teams to define, design, and ship new features
- Debug and resolve UI defects and improve application performance
- Stay current with the latest web development technologies and best practices
- Contributed to the creation of bilingual components and styles, catering to both LTR and RTL languages. Implemented CSS techniques for seamless user experiences across different text orientations.

09/2019 – 12/2020 Tehran, Iran	**Quality Assurance Specialist,** *Fanap ICT Co* • Responsible for testing three SaaS-based products: Financial, Accounting, and Treasury. • Created comprehensive test cases and test scenarios as documentation to ensure product quality. • Conducted unit, integration, and automation tests to identify bugs and errors. • Served as a liaison between the development team, product manager, and business analysts. • Collaborated with developers to troubleshoot and resolve issues. • Communicate testing progress and results to stakeholders. • Analyzed test results and provided actionable feedback to the development team. • Actively participated in agile development methodologies, contributing to daily stand-ups, sprint planning, and retrospective meetings, resulting in efficient project execution and timely deliverables. • Work with BPMN tool
01/2018 – 08/2019 Tehran, Iran	**Front-end developer,** *Rasha Communications Development* • Collaborated closely with both front-end and back-end developers to implement responsive user interfaces using HTML, CSS. • Utilized Postman to test and validate API endpoints, ensuring proper integration and functionality of frontend-backend interactions. • Contributed to the development of multiple projects, utilizing version control tools like Git and tracking project tasks and workflow with Jira. • Migration from CSS modules to Styled Components, enhancing code maintainability and scalability.

EDUCATION

09/2011 – 05/2015 Bonab, Iran	**Bachelor of Architecture,** *University of Bonab* • **GPA**: 16.54 / 20 • **Relevant coursework:** Design Thinking, Digital Fabrication, Sustainability in Architecture, Developed strong skills in critical thinking, problem-solving, and creative design through coursework and studio projects
